BUSINESS DESCRIPTION

Dynamic online platform dedicated to providing insightful and up-to-date political news and analysis from around the world.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team updated the website layout and converted HTML and CSS blocks into pre-styled Gutenberg blocks.

- **Gutenberg Block Transformation.** Updated the website layout and transformed HTML and CSS blocks into pre-styled Gutenberg blocks. Created a set of templates for admins, allowing the addition of large volumes of content with ready-to-go blocks, eliminating the need for additional coding or customization.
- **Efficient Content Addition.** Implemented a new method for adding content seamlessly and quickly.
- **Ongoing Technical Support.** Providing day-to-day support for sustained website optimization. We created a set of templates that allow users to add large volumes of content using ready-to-go blocks to avoid any additional coding or customization.

This transition not only updated the website layout but also introduced a set of templates for efficient content addition without the need for extensive coding. The approach focuses on providing users with a seamless experience while ensuring ongoing technical support for sustained optimization.

WORDPRESS

BUSINESS DESCRIPTION

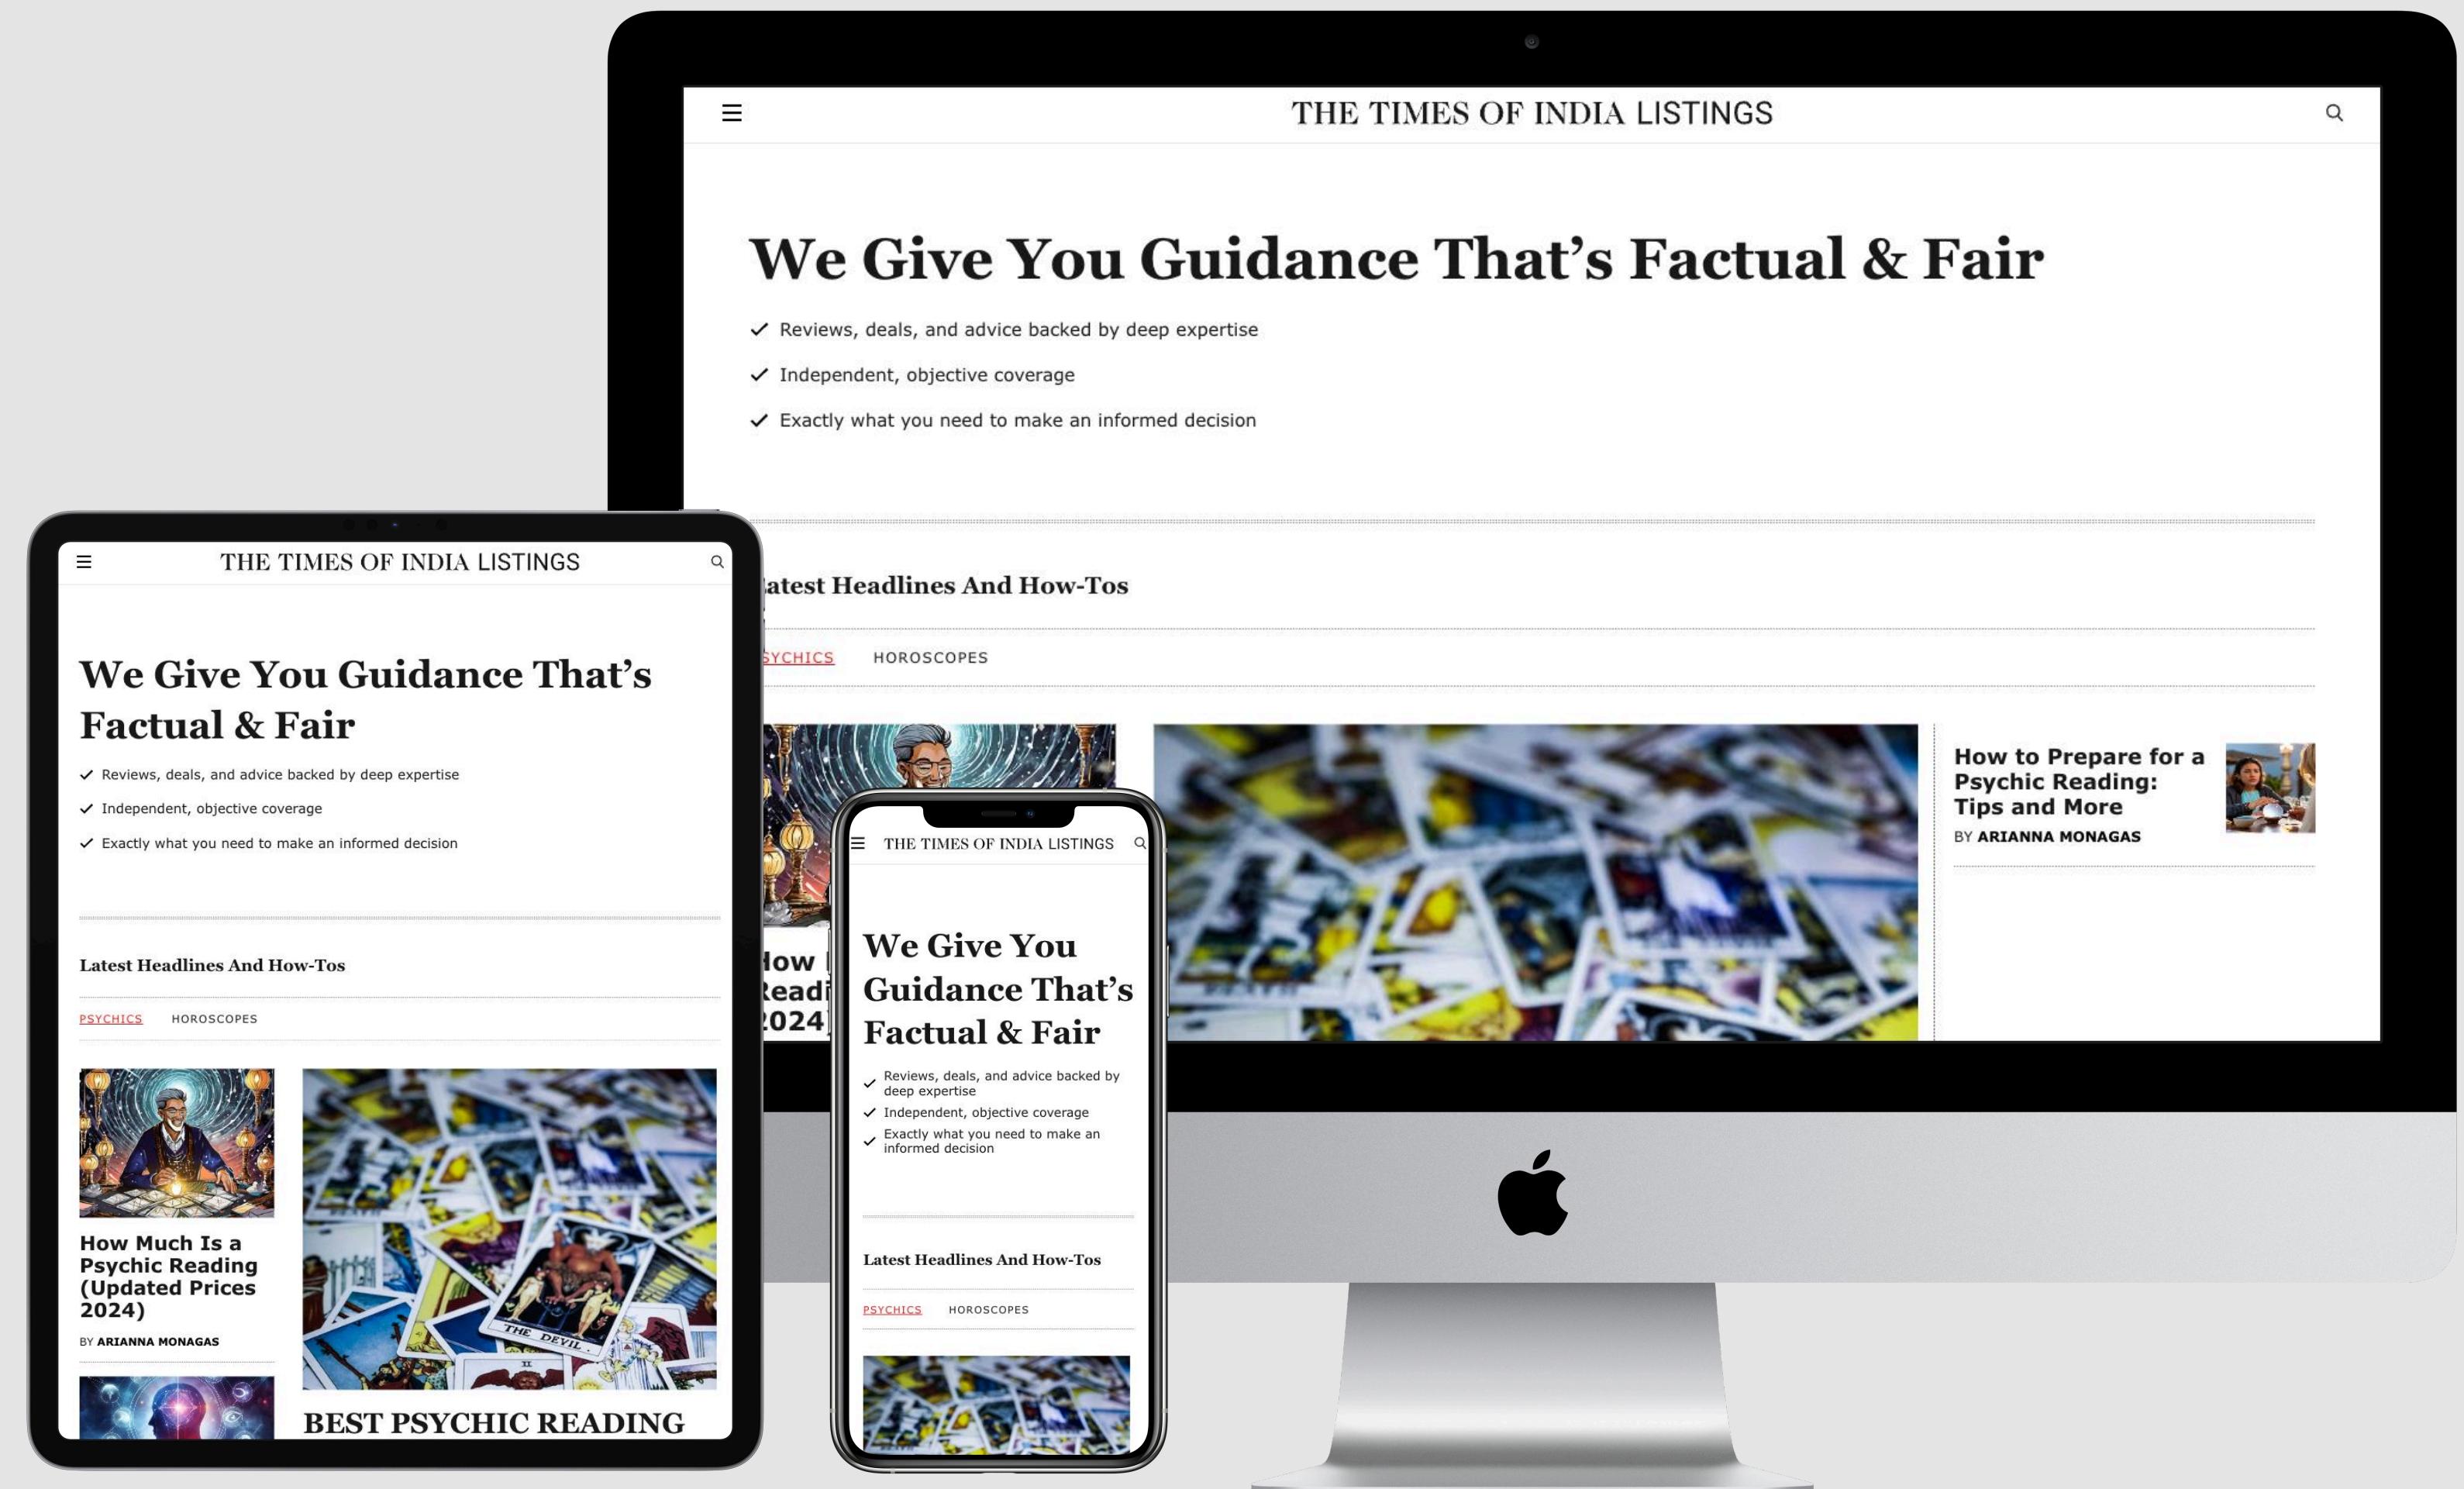

An online platform that enables the redirection of traffic from news blogs to an advertising platform, increasing conversion rates through the implementation of the advanced schema for product listings. The theme also facilitates native advertising by aligning with the main site's styles.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Stellar Soft team has developed a versatile theme that enables content updates without requiring coding skills, showcasing our commitment to user-friendly design and optimized performance. Key involvements include.

- Versatile Theme Development.** Created a WordPress theme facilitating content updates without coding expertise. Users can easily choose pre-filled blocks and populate them with the latest news.
- Strattic Integration.** Developed and integrated all blocks with the Strattic platform, allowing the generation of a secure and fast-loading static HTML version of the website.
- ACF Setup.** Utilized the ACF Pro plugin and predefined patterns to enable the creation of new pages and posts that are already prefilled, simplifying content creation for users. Blocks and pages can be easily copied with all settings from one place to another.
- Enhanced Loading Speed.** Improved site loading speed by implementing a secure and fast-loading static HTML version.
- Custom schema markup setup.** The client would like to promote particular pages and content of the website, that's why among the Yoast SEO, we had to create custom markup schema in the code.
- Theme duplication:** each theme can be reused for a new website with the minimum coding effort. It requires a couple of hours to change fonts and styles to follow the company branding without vast code and layout customization.

This project reflects our commitment to user-friendly design and optimized performance, empowering clients to manage their content effortlessly while ensuring a swift and secure website experience.

The corporate website of the world-wide, renowned bespoke suit, shirt, and shoe brand, catering timeless and classic British tailoring to private clients in more than 20 countries and to Hollywood movies.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team took over the website for maintenance after the previous team. This move not only improved performance but also fortified the website against potential hacking threats.

- **Codebase Enhancement.** We delved into the existing codebase, implementing improvements to enhance overall website performance and stability.
- **Bug Resolution.** Critical bugs were meticulously identified and resolved, ensuring a seamless and error-free user experience.
- **Ongoing Support.** Our commitment extends beyond the initial takeover. We provide continuous support, addressing new page creation, custom section development, and bespoke solutions.
- **Strategic Hosting Migration.** Recognizing the importance of robust security, we strategically migrated to a new hosting provider.
- **Integration with custom CRM.** We were working with another team to implement the integration between the website and custom-built CRM.

The website serves as a comprehensive platform showcasing information about the customer's food supply and wholesale businesses. It offers users the ability to browse through the entire range of products and place orders or make bookings from any section of the site, providing a seamless and convenient experience.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team's dedication to crafting a tailored website experience has resulted in the following key achievements.

- **Design from Scratch.** We meticulously crafted the site's vision and design from scratch, engaging in collaborative workshops with the client to ensure alignment with their goals and preferences. This iterative process enabled us to create a website that reflects the client's vision and resonates with their target audience.
- **Flexible and User-Friendly.** The developers have skillfully engineered a flexible website with intuitively designed sections, prioritizing user-friendliness and accessibility.
- **Day-to-Day support.** The website is constantly scaling, we're implementing the custom templates which allows client to edit everything from the admin.

BUSINESS DESCRIPTION

The company provides services of posting jobs for specific positions starting with interim specialists, accountants, recruiters and all the way up to finance directors, executive directors and financial officers of C level.

While being very similar to each other, the client has 6 distinct web sites for each of the domains of expertise outlined above:

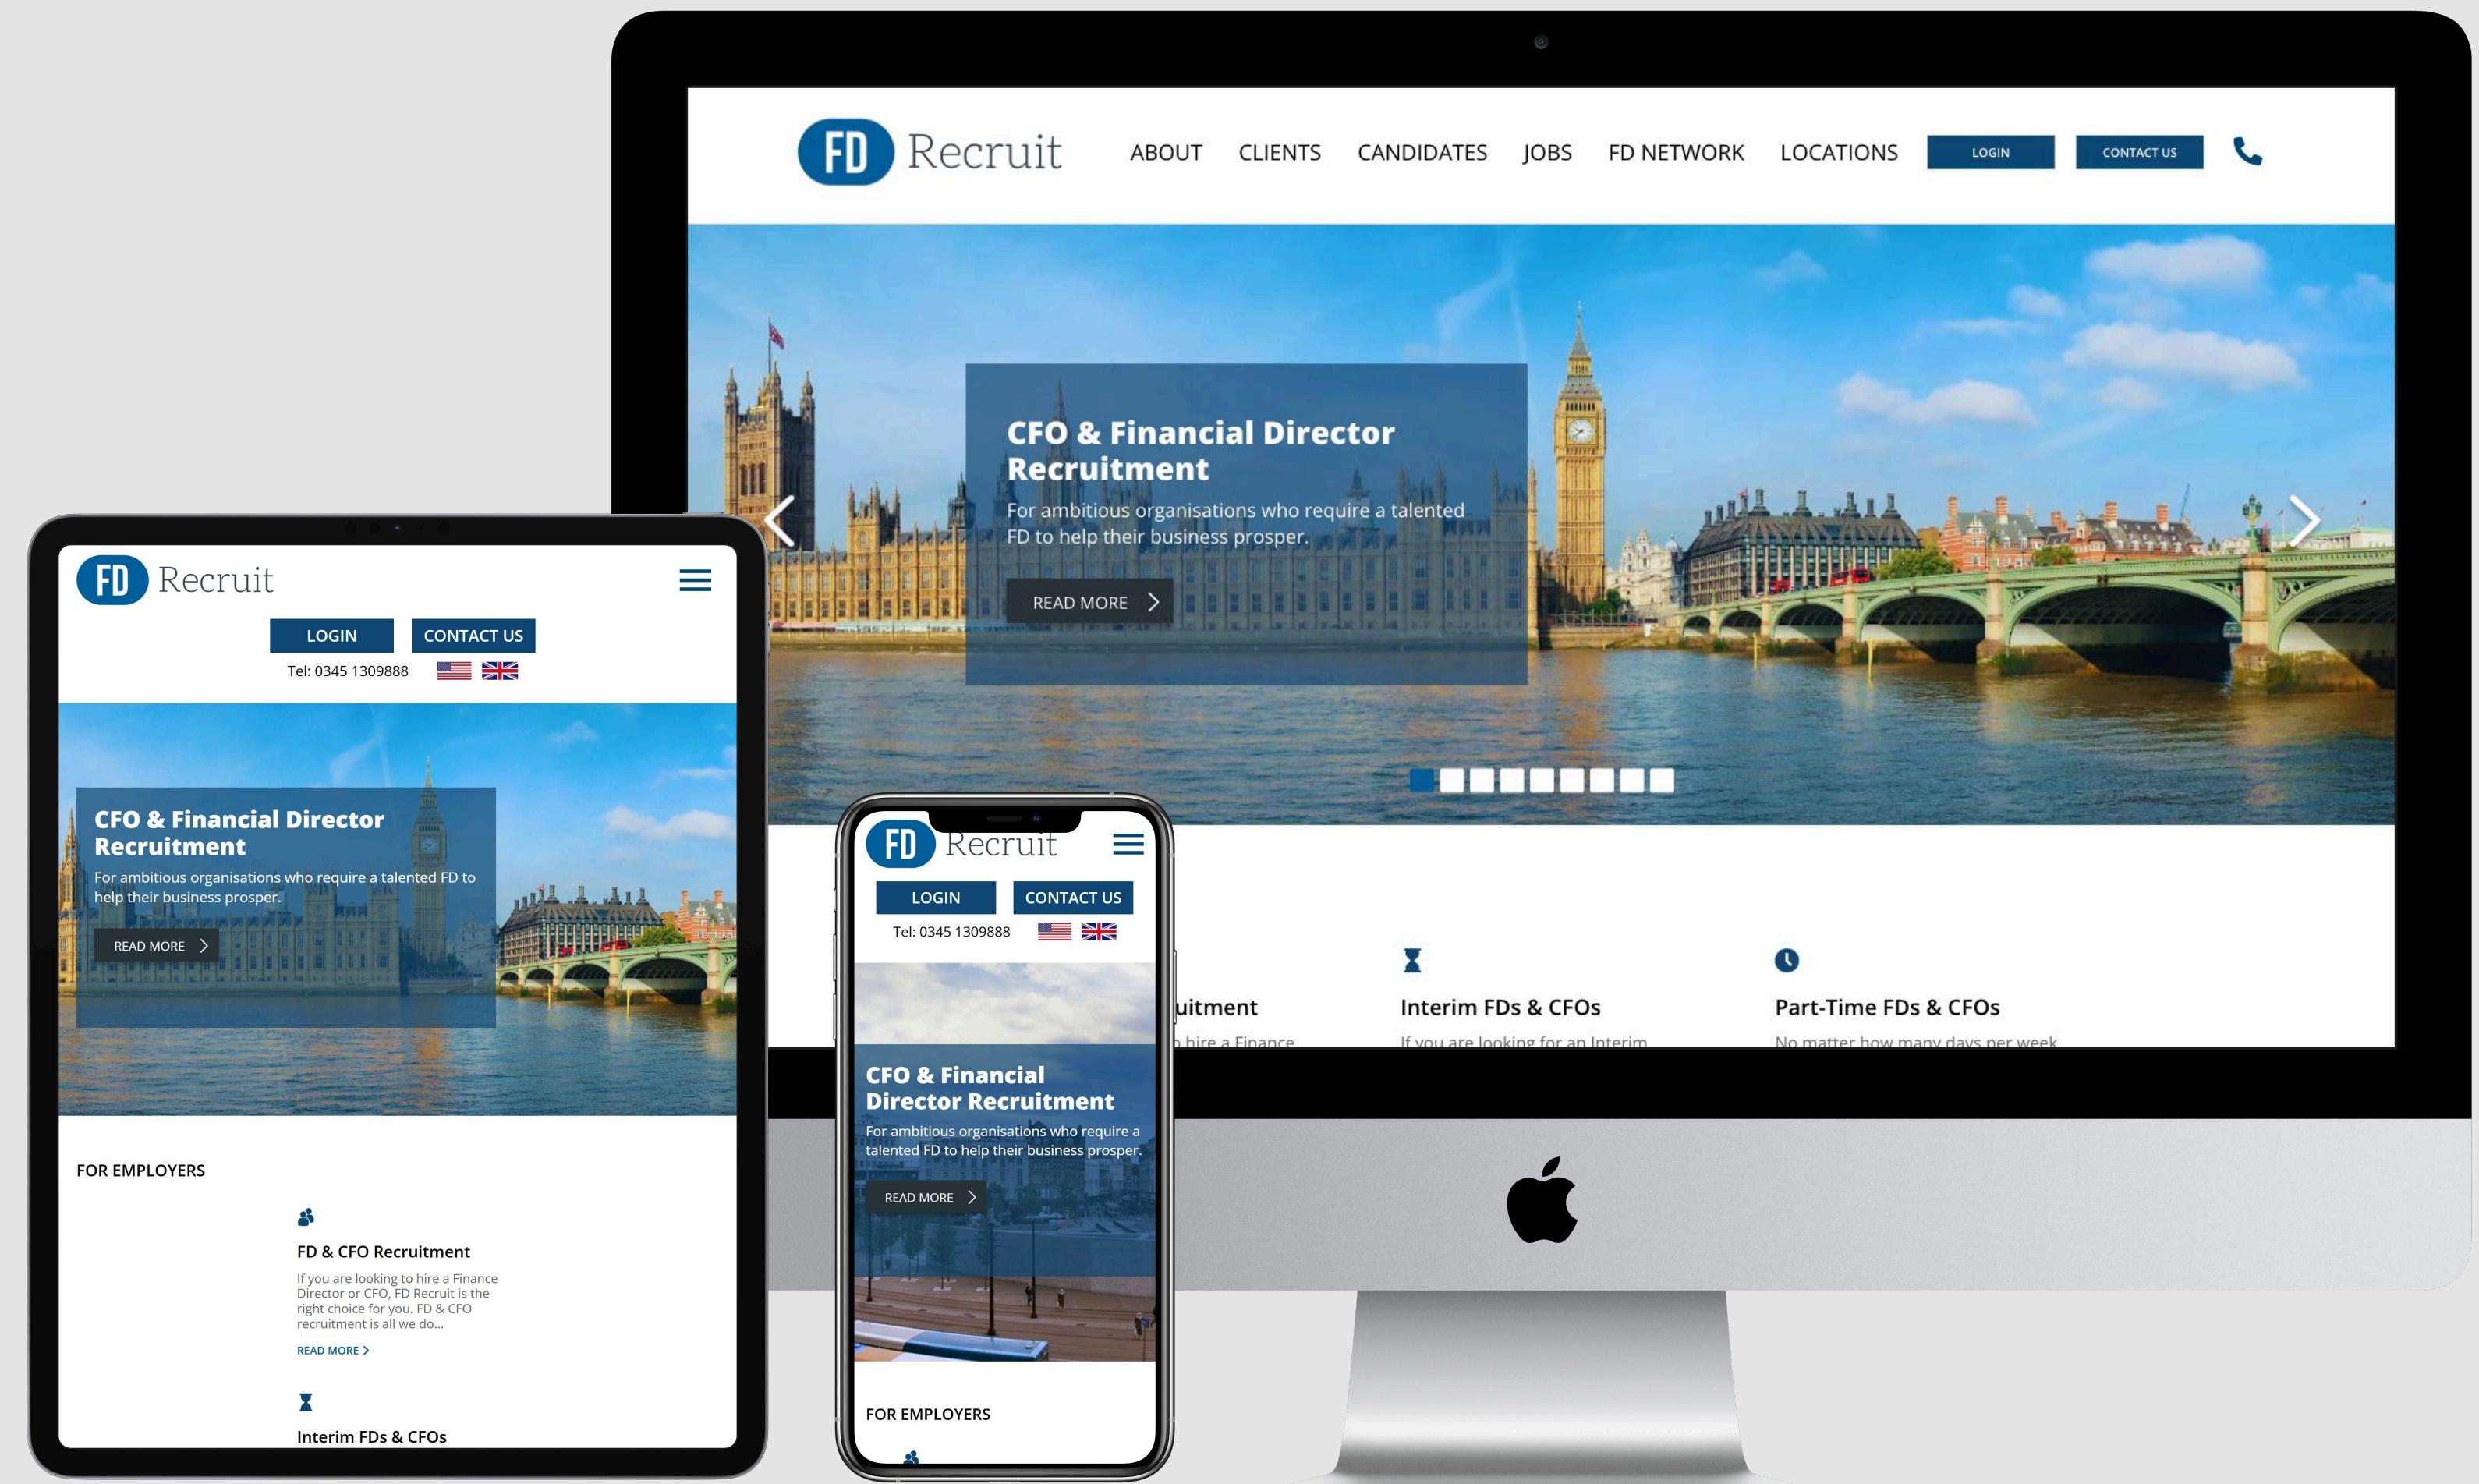

1. FDRECRUIT.CO.UK - specializing in recruiting Finance Directors and CFOs across eight regions in the UK;
2. ACCOUNTANCYRECRUIT.CO.UK - focused on professional Accountancy Recruitment;
3. HRRECRUITMENT.CO.UK - platform for HR Professional looking for a new position;
4. INTERIM-RECRUIT.COM - attracting top interim managers to address urgent business needs;
5. EXECUTIVERECRUITMENT.CO.UK - aiding in locating high-caliber executives sought by clients;
6. CFO-RECRUIT.COM - specializing in the recruitment of CFOs across the USA.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team embarked on a transformative mission to revamp their website and address pressing challenges hindering their online success.

- **Complete Site Re-design.** Recognizing the importance of a modern and visually appealing website, our team executed a comprehensive re-design to give the site a fresh look. By replacing the outdated design with a contemporary layout, we enhanced the site's aesthetic appeal and user experience, contributing to increased visitor engagement and retention.
- **Streamlined Backend Operations.** To optimize site performance and simplify maintenance, we streamlined the backend infrastructure by eliminating unnecessary Docker modules and transitioning to a WordPress-centric architecture. This consolidation reduced complexity, improved efficiency, and ensured that all functionality was seamlessly integrated within the WordPress environment.
- **Performance Optimization.** Recognizing the significance of site speed in driving user satisfaction and search engine rankings, we implemented a series of optimizations to enhance loading speed. By optimizing image formats, re-arranging page element loading order, and migrating to a more efficient web server (nginx), we significantly improved the site's performance, resulting in faster loading times and smoother user interactions.
- **Spam Mitigation Measures.** Addressing the client's concerns regarding spam attacks, we implemented robust security measures to mitigate automated requests and spam submissions. By integrating the latest version of ReCaptcha and introducing a hidden checkbox to contact forms, we effectively filtered out spam submissions. Additionally, we configured the All in One WP Security plugin to proactively filter suspicious IPs, further bolstering the site's security and protecting against potential threats.
- **External integrations.** Integration with Bullhorn CRM for easy management of user data across all 6 sites in one place. This CRM also enables bulk email sendouts and tracking various statistics across all sites. Our team has created an optimized autosynchronization mechanism that ensures data sync between WP admin of each site and Bullhorn CRM dashboard. The synchronization happens upon execution of cron jobs which are scheduled for every day. During execution of a cron job, the system detects changes in data and makes sure to populate that data on the other side of the system (WP admin -> CRM, CRM -> WP admin). Thanks to this mechanism, our client always operates with the latest, up to date info on each of their users without overloading the CRM with lots of incoming requests constantly coming at it from 6 different sites. The admins can also manually trigger the sync from both WP admin and CRM sides if needed.

BUSINESS DESCRIPTION

A company website representing leading and innovative cybersecurity company dedicated to safeguarding businesses and organizations from digital threats and data breaches.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Cybersecurity is the main client demand. Our team has created a static JS version of the website which makes content loading faster and in a secure way without any linking to Wordpress site.

- Static JS Website Version.** Developed a static JavaScript version of the website. Ensured a more secure environment by eliminating direct linking to the WordPress site.
- Improved Content Loading Speed.** Significantly improved content loading speed for an enhanced user experience.
- Providing day-to-day support.** Providing day-to-day support for sustained website optimization.

This strategic move to use Static JS website aligned with the client's cybersecurity demands, providing both speed and security for a robust online presence.

BUSINESS DESCRIPTION

Copper Mountain Technologies provides vector network analyzers for thousands of clients in close to 100 countries around the world. Their VNAs include an RF measurement module and a software application that runs on an external PC laptop or tablet, and connects to the measurement hardware via USB interface. Users can take advantage of the latest operating systems, processing power, larger displays, and reliable performance of an external PC while realizing a lower total cost of ownership and simplified maintenance. The result is a faster, more effective test process that fits into the modern workspace.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team played a pivotal role in guiding the client through critical breakpoints in their project journey, ensuring their success at every stage.

- **Strategic Planning.** We provided comprehensive guidance during strategic planning sessions, helping the client define clear objectives, prioritize tasks, and outline a roadmap for success.
- **Technical Expertise.** Leveraging our team's technical expertise, we offered innovative solutions to overcome technical challenges and optimize performance. Whether it was implementing new features, resolving complex issues, or enhancing functionality, our team provided reliable support every step of the way. Responsive Support. We remained highly responsive and adaptable, addressing any emergent issues or concerns promptly. Our team's commitment to providing timely and effective support ensured that the client's project remained on track and aligned with their goals.
- **Collaborative Partnership.** Through open communication and collaboration, we fostered a strong partnership with the client. By actively listening to their needs, providing valuable insights, and aligning our efforts with their vision, we facilitated a productive and mutually beneficial working relationship.
- **Continuous Improvement.** Our team remained dedicated to continuous improvement, regularly evaluating project progress, identifying areas for enhancement, and implementing refinements to optimize outcomes. By remaining proactive and adaptable, we helped the client navigate challenges and capitalize on opportunities for growth.

Overall, our team's proactive approach, technical proficiency, and collaborative mindset were instrumental in helping the client navigate breakpoints and achieve success in their project endeavors.

BUSINESS DESCRIPTION

A website dedicated to providing resources and information for Jewish travelers around the world. It offers a platform where users can find travel guides, recommendations for Jewish heritage sites, kosher restaurants, synagogues, and other Jewish points of interest in various destinations.

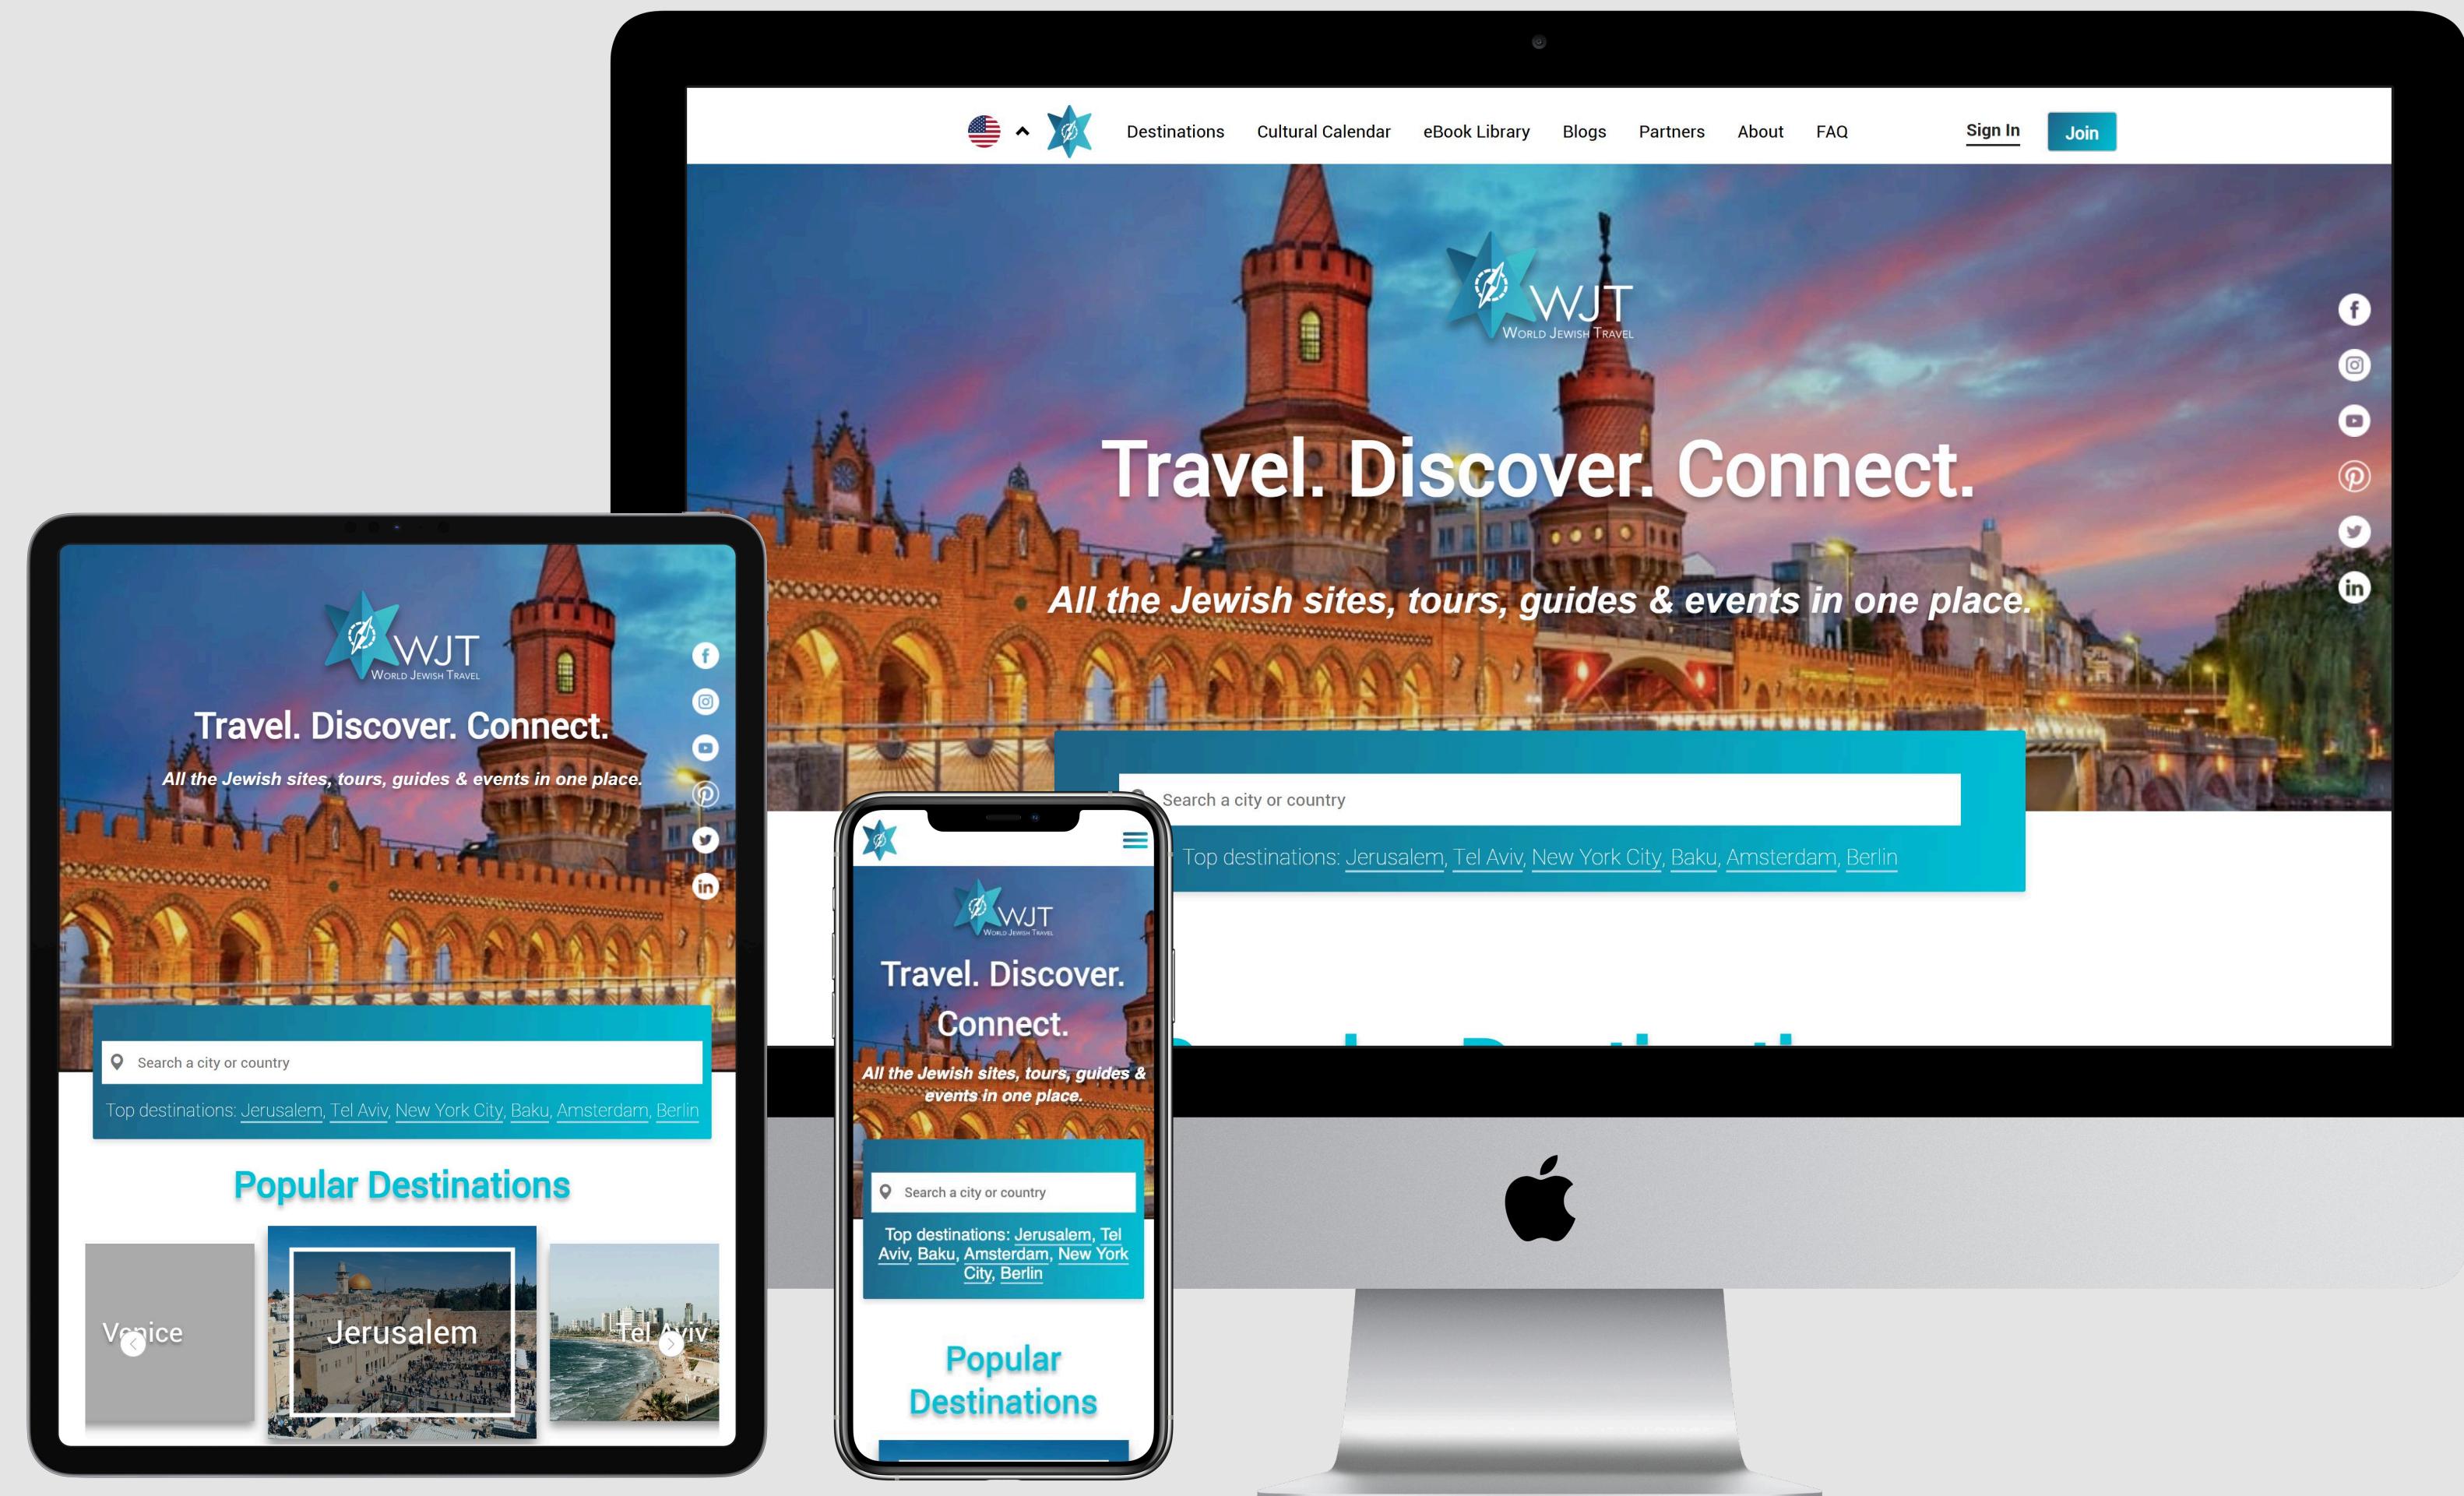

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Our team's commitment to excellence in support and development has led to significant advancements in site performance and functionality.

- **Exceptional Support.** We prioritize delivering exceptional support for feature development and site maintenance. Through optimization of the codebase and database structure, we've notably improved site speed and server loading. Additionally, we adhere to best development practices, ensuring continuous enhancements.
- **E-commerce Integration.** Integration with WooCommerce and Stripe enables seamless transactions, allowing users to purchase paid listings and secure primary placements on the website.
- **Custom Blog Plugin.** The WJT blog features a custom-developed plugin, facilitating user registration and the creation of a directory of listings. This directory showcases Jewish places of interest worldwide, enhancing the site's value and functionality.
- **Flashy Integration.** Our active support for the Flashy integration empowers businesses to seamlessly incorporate the Flashy marketing automation platform into their system, enhancing marketing capabilities and efficiency.
- **Instagram Feed Setup.** Our developers have implemented an Instagram feed, providing a customizable and responsive platform for showcasing Instagram content. This feature fosters audience engagement and strengthens the site's social media presence.
- **AI Chatbot Implementation.** Currently, our focus is on implementing an AI chatbot to provide content-related answers and guides for site visitors. This initiative aims to enhance user experience and streamline information retrieval.
- **Web App Development.** Our team is developing a Web App that utilizes AI models to create full content for the website. This innovative approach promises to streamline content creation processes and enhance site efficiency.

Through these initiatives, we continuously strive to elevate the site's performance, functionality, and user experience, ensuring it remains at the forefront of innovation in its field.

Their electricians receive extensive training and are fully licensed to install or repair any electrical work. Services: Emergency Repairs, Electrical Repairs, Electrical Inspections & Code Compliance, EV Charger Installation, Circuit Breakers, Wiring Electrical Panels, Generators, Ceiling Fans, Whole House Surge Protectors, Smoke Detectors, Electrical Switches & Outlets and more.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

How our team helped the client succeed in their website transformation journey and achieve their business.

- **Platform Migration.** Recognizing the limitations of the client's previous platform, Wix, our team proposed and executed a seamless migration to WordPress. By leveraging the flexibility and scalability of WordPress, we provided the client with a more robust and customizable platform to support their business needs.
- **New Design and Enhanced User Experience.** To help the client attract more clients through their website, we developed a completely new design that prioritized modern aesthetics, intuitive navigation, and clear presentation of services. Our focus on user experience optimization ensured that visitors could easily find relevant information and engage with the site's content.
- **SEO Collaboration.** Recognizing the importance of search engine optimization (SEO) in driving organic traffic to the site, we collaborated with a third-party SEO team to implement and maintain SEO best practices. By optimizing content and configurations, we helped improve the site's visibility and search engine rankings.
- **Implementation of Blog Section.** In response to the client's request to enhance their content marketing efforts, we seamlessly integrated a blog section into the website. This addition provided the client with a platform to regularly publish informative and engaging content, further establishing their authority and attracting potential clients.
- **Future-Ready Features.** Anticipating the client's future needs and growth ambitions, we engaged in discussions about upcoming features such as a dynamic solution builder and price calculator. By proactively planning for these enhancements, we ensured that the website would continue to evolve and meet the client's evolving business requirements.

Overall, our strategic approach, collaborative mindset, and focus on delivering results were instrumental in helping the client.

HOW OUR TEAM HELPED THE CLIENT TO SUCCEED

Here's how we provided essential support to overcome challenges and drive success:

- **Adding New Content.** By consistently enriching the site with fresh and engaging content, we enhanced user engagement and bolstered the client's online presence. This proactive approach helped attract and retain visitors, ultimately contributing to increased conversions and business growth.
- **Maintaining Functionality.** Regularly checking and updating installed plugins ensured that the site remained secure, stable, and optimized for performance. By staying vigilant and proactive in addressing potential issues, we safeguarded the client's digital assets and provided a seamless browsing experience for users.
- **Troubleshooting.** Our team's adept troubleshooting skills enabled us to swiftly identify and resolve any technical issues or glitches that arose. By addressing challenges promptly and effectively, we minimized downtime and ensured uninterrupted access to the site for visitors and customers.
- **Adding New Pages.** As the client's needs evolved, we facilitated the expansion of their online presence by adding new pages to the site. Whether it was showcasing new products, services, or company updates, our team ensured that the site remained dynamic, relevant, and aligned with the client's goals.

Through collaborative efforts and proactive support, our team helped the client overcome breakpoints and achieve sustained success in their online endeavors.
